

CSCC Award for Outstanding Contribution to Clinical Chemistry
Sponsored by Bayer Inc. Diagnostics Division

Khosrow Adeli

Khosrow Adeli is currently Head, Division of Clinical Biochemistry, Dept. of Laboratory Medicine, the Hospital for Sick Children, Toronto, Ontario. Khosrow is a Senior Associate Scientist, Structural Biology & Biochemistry/Cardiovascular Diseases, Research Institute, Hospital for Sick Children. Dr. Adeli is also a Professor in the Departments of Laboratory Medicine & Pathobiology and Biochemistry at the University of Toronto.

Dr. Adeli received his M.Sc. and Ph.D. degrees from University of Ottawa in 1982 and 1986, respectively. Khosrow completed the University of Toronto Diploma Programme in Clinical Biochemistry in 1988 and became a fellow of the Canadian Academy of Clinical Biochemistry in 1990. Khosrow was certified in the US when he became a diplomat of the American Board of Clinical Chemistry in 1993. His early career (1988 – 1998) was in Windsor, ON following completion of his clinical biochemistry post-doctoral training in Toronto.

Dr. Adeli has been an active reviewer for several international journals including: Journal of Biological Chemistry, Biochemistry, European Journal of Biochemistry, Endocrinology, Diabetes, Biochemistry and Cell Biology, Journal of Lipid Research, Arteriosclerosis Thrombosis Vascular Biology, American Journal of Pathology, Clinical Chemistry and Clinical Biochemistry. From July 1999 to December 2005, Khosrow served the CSCC as editor in chief of Clinical Biochemistry.

Khosrow is an outstanding record in research at the University of Windsor and at the University of Toronto. He continues to receive external funding as a principal investigator (and co-investigator) and was the recipient of the CSCC Research Excellence Award in 1999.

Khosrow has been Director, Postdoctoral Training Program in Clinical Chemistry, Department of Laboratory Medicine and Pathobiology, University of Toronto since 2000. He has had several graduate students at University of Windsor and at University of Toronto.

Khosrow Adeli is a very worthy recipient of the 2005 CSCC Award for Outstanding Contribution to Clinical Chemistry. He has made a huge contribution to the CSCC over the past several years as editor in chief of Clinical Biochemistry. On behalf of the Canadian Society of Clinical Chemists, I wish him continued success in his future academic and professional activities in the profession of Clinical Biochemistry in Canada and internationally. I am sure that Khosrow will continue to be an active member of the CSCC in the future.

Congratulations, Khosrow!
