Sukhbir Kaur

Michael Knauer

Natalie Landry

Samantha Logan

Amy Lou

Andre Mattman

Lily Olayinka

Ivan Stevic

Vinita Thakur

Laurel Thorlacius

Hana Klassen Vakili

Kika Veljkovic

Nicole White-Al Habeeb

General Activities:

We have completed just the first year of this new SIG on Kidney Disease and have held numerous meetings with two goals. One to survey across the country the reporting and utilization practices on

kidney disease testing, which is being finalized by a sub-group. This information is to be made available and published in an open access journal and will be followed up by a secondary publication of best practice recommendations.
